

PRESENTING

VENTURES
— BY SEABOURN™ —

*A New Way
to Experience
Destinations*

A select series of excursions offering exceptional opportunities to enhance and extend the ways you experience destinations.

ENHANCE: On sailings featuring Ventures by Seabourn™ excursions, share your entire voyage with a knowledgeable, experienced expedition team of scientists, scholars, and naturalists. These fascinating, accomplished experts will be part of our *Seabourn Conversations* program, providing you in-depth insights into the history, ecology and culture of the places you visit. On your intimate Seabourn ship, their valuable insights are offered both in formal presentations and in more casual conversations over meals or at leisure.

EXTEND: In select ports of call, a new series of optional Ventures by Seabourn excursions, guided by our expedition team, invites you to explore spectacular destinations on exhilarating sea-level adventures. Launching from our unique fold-out water sports Marina aboard our fleet of sturdy, stable Zodiac inflatable boats or paddling in double sea kayaks, these adventures will vary depending on your itinerary, but include thrills such as cruising picturesque fjords and waterways, trekking on scenic islands, viewing birds, seals, whales and other wildlife up-close, and surveying massive, white-blue icebergs.
